

LDS4.01M Hi-Flow Programmable Dosing Pump

Williamson
UK manufacturers of quality peristaltic pumps

October 2019

- 32 Programmable individual or every day dose times.
- Mains Operated via Plug in 12v DC power supply.
- Highly visible blue back lit display.
- Compact IP55 Casing.
- Various pump head tube options.

Developed for timed dosing of various applications including drain & grease traps, urinals and water treatment. This Hi Flow unit utilises an easy to use custom programmable control unit & our standard 200 series pump head. The unit includes features such as: Flow calibration, battery back up & the option to pass code protect settings.

Un-like the standard flow version the Hi Flow version is available with different tube types to cater for a wider range of chemicals. The IP55 case is custom moulded in ABS, has a small footprint and is wall mountable.

General specifications:

- Pump output approximately 180 ml/min (based on Silicon other tube types will be slightly less).
- Battery back up approximately 40 hours.
- 5mm tube connectors.
- Comes complete with 5 meters of pvc suction & discharge hose, tube stiffener, stiffener retaining clip, wall plugs woodscrews for wall mounting and back up battery.
